Principal
Huntsville City School

Hi! My name is Jeremy Eslick and I am the Humane Educator for the City of Huntsville. Humane education is a vital part of helping our children grow into compassionate adults.

I have enclosed a flyer for all the local teachers. If you would please place it in a prominent location, it will give the teachers an option for the school year. I am an untapped resource for our students.

Typical presentations include an animal that is appropriate for the group. By helping the children understand animal control agencies, it will help them contribute in a positive way to solving our overpopulation crisis in America today. All the presentations are age appropriate, fun, and free!

Thank you for your time! Together we CAN make a difference.

Sincerely,

Jeremy Eslick

Humane Educator
